SUMMARY

Frontend / MERN Stack Developer with hands-on experience in building responsive and user-friendly web applications using MongoDB, Express.js, React.js, and Node.js. Strong foundation in JavaScript (ES6+), HTML5, and CSS3. Experienced in RESTful API integration, Git/GitHub version control, and collaborative development. Focused on writing clean, maintainable code and improving application performance.

PROJECTS

EDIFYCRM – Customer Relationship Management Platform

- Developed and customized CRM dashboard to enhance user experience and data visualization.
- Implemented responsive UI using HTML, CSS, JavaScript, and React.js.
- Integrated backend REST APIs to display real-time customer and sales data.
- Collaborated with product and backend teams to improve workflows and reduce manual effort.

E-Commerce Store

- Built product listing, cart functionality, and checkout flow using mock APIs.
- Implemented responsive layouts and dynamic UI updates using React.js.

Interactive Dashboard

- Designed charts, tables, and filters for effective data visualization.
- Ensured usability and responsiveness across multiple devices.

To-Do List Application

- Developed a task management application using DOM manipulation and event handling.
- Implemented features for adding, editing, deleting, and completing tasks.
