TECHNICAL SKILLS

- Web Development: HTML, CSS
- Database: MySQL
- Software Tools: Git, Power BI, Dockers

WORK EXPERIENCE

LRM Consultants, Lucknow – 20-05-2025 to ongoing

- Working as a Software Development Engineer providing software solutions to the management, analysis and processing of data.

PROJECTS

- **Title: Quiz System**
  - **Description:** You're building an Online Quiz System HTML, CSS, JavaScript for the frontend. The system includes user registration, quiz selection, a timer, automatic scoring, and a leaderboard.
  - **Role:** Frontend Developer
- **Title: Blog Page**
  - **Description:** A Travel Blog Page showcases travel experiences with images, descriptions, and user interactions. It can be a static page using HTML, CSS, and JavaScript for user posts and comments. The design includes a responsive layout, featured destinations, and a blog section.
  - **Role:** Frontend Developer
- **Title: AI Assistant for Technical Q&A in Programming – Fine-tuned GPT-4**
  - **Description:** "AI Assistant for Technical Q&A in Programming", an intelligent question-answering system powered by a fine-tuned GPT-4 model. Unlike traditional platforms, our system understands the intent and context of the user's query, enabling it to generate accurate code suggestions along with detailed explanations.
  - **Role:** Frontend Developer

Internships

- **Microsoft Business Intelligence/ Power BI | EXCELR**   June-July 2024
  - Learned and gained expertise in data visualizations and analytics using Power BI, with a focus on creating dynamic, interactive dashboards and deriving actionable insights from complex datasets.

CERTIFICATIONS

- Continuous Integration and Delivery - DevOps Assessment
- Software Engineering and Agile software development
