Objective

Motivated Information Technology student seeking an entry-level position in a reputed organization where I can apply my technical knowledge, enhance my skills, and contribute to impactful real-world projects while growing professionally.

Education

Gokaraju Lailavathi Engineering College   **2022 – 2026**
B.E in Information Technology   *CGPA:8.0*

Alphores Junior College   **2020 – 2022**
Intermediate(MPC)   *Percentage:95*

Sri Chaitanya High School   **2019 – 2020**
SSC(10th)   *CGPA:10.0*

Projects

Web-Based tool for Detecting and Redacting PII for PDF Files | *Python,Html,Css*
- Developed an automated system to detect and redact sensitive personal information (PII) such as Aadhaar numbers, PAN, phone numbers, and email addresses from PDF documents.
- Integrated regex and Aadhaar validation to reduce false positives in identifying and redacting PII.

Lost Found − College Recovery Platform | *MERN Stack*
- Developed a full-stack web app to help users report/search lost or found items.
- Implemented authentication, posting, and search with MongoDB.
- Responsive frontend using React.js, backend API with Node.js and Express.js.

Experience

Web developer intern — Oasis Infobyte   **Nov 2024-Dec 2024**
- Worked as a Web Developer Intern at Oasis Infobyte, contributing to the design and development of responsive web applications.
- Implemented frontend features using HTML, CSS, JavaScript, focusing on clean UI and cross-browser compatibility.

Technical Skills
